

THE STEPS TO REGAIN YOUR SMILE

1. Impressions

Taking impressions of your teeth.

2. Setting of the treatment

A detailed **treatment plan** will be proposed (number of aligners required, duration and cost of the treatment) and **before/after**¹ video. Your aligners are custom-made.

3. Daily treatment

Treatment time: variable according to its complexity, usually from **6 to 24 months**. Aligners should be worn daily for **22 h/ per day during 2 to 3 weeks** (1 week of wear if ATP38^{®2} Miracle device is used). You remove your aligners only when eating.

4. Retainers

Once the treatment is completed, **take care of your smile** with custom retainers.

Biotech Dental Smilers[®] is a family mid-sized company with strong values, committed to provide a French sourire chic to everyone.

HOW DO CLEAR ALIGNERS WORK?

Smilers® aligners **correct dental malpositions** in order **to recover** a harmonious and functional alignment. They are **removable, almost invisible** and **custom-made** to fit your teeth.

They apply **light mechanical forces** to give you the smile you are dreaming of.

MANY TREATABLE CASES

In some cases, your practitioner may need to:

- › Glue small resin dots called **attachments** to **ease some movements**.
- › Perform a **stripping***: file a few tenths of a millimeter of enamel to allow some movements. **This practice is painless.**

* interproximal reduction

DENTAL EXPERTISE AT THE CENTER OF THE TREATMENT

Because teeth do not grow back, it is essential to align them with the expertise of a healthcare professional, who will make sure that the treatment is done properly for optimal results.

ECO-RESPONSIBILITY

Our aligners are **bisphenol-free**, their packaging is **recyclable** and our brochures are **printed with vegetable-based ink**.

MADE IN FRANCE QUALITY

✓ Aligners inspired by french Haute Couture for your comfort:

- Produced in our **high technology factory** in Salon-de-Provence
- Precise cut to provide a **scallop edge**
- Hand-polished in our Smilers® workshop

✓ A smooth impression which prevents deposits and preserves the clearness day after day

Our factory is **certified ISO 13485**, proving the qualitative production of our clear aligners

Smilers® aligner compared to competition aligner, after one week in coffee.
